

Instant Architectural Drainage

W.E.T.T. Spot Point Drains

Designer stainless steel tile insert point drains developed to complement the linear channel drain system, or to be used instead of traditional floor wastes. Rather than making a feature of the drainage point, the W.E.T.T. Spot is almost invisible, yet has the same intake capacity as a traditional 100mm floor waste. The 5mm wide perimeter intake slot allows the designer to specify a floor finish to complement the bathroom design. It can be used with Ceramic, Natural Stone, Glass, or Vitrified tiles.

Being only 22mm deep over-all allows for easy specification and fast trouble free installation as the depth does not impact on the overall bed depth, if using a screed tile bed. The flexibility of multiple outlet diameters, can allow the W.E.T.T. Spots to be used for all drainage applications, from shower recesses, bathroom floors, laundries, balconies, powder rooms, swimming pool surrounds and roof top drainage.

- ① W.E.T.T. Spot Point Drains, are tile inserts, they can be used in any situation where a standard waste is required.
- ② W.E.T.T. Spot Point Drains are completely stainless steel, and are only 22mm deep.
- ③ W.E.T.T. Spot Point Drains can be installed in an ensuite as the floor drain next to the free standing bath tub.

Instant Architectural Drainage

W.E.T.T. Spot Point Drains

The highest quality stainless steel Tile Insert point drains developed to create the ultimate in discrete surface drainage for easy, fast and trouble free installation.

The shallow over-all depth of 22mm combined with the option of 3 outlet diameter sizes, creates the perfect point drain for all architectural drainage applications.

W.E.T.T. Spot is 130mm Square over-all and has an easily fully removable stainless steel tile insert tray, which allows full access to the discharge outlet. When the tray is in place it creates a very discrete, but fully effective 5mm wide perimeter intake slot.

The simplicity of design and discrete intake slot combined with the high quality stainless steel manufacture, makes the W.E.T.T. Spot the ultimate in Tile Insert Point Drains and has the intake capacity of a traditional 100mm floor waste.

- ① Heelguard Grate
- ② Stainless steel Tile insert tray
- ③ Stainless steel base tray
- ④ Discharge outlet available in 44mm, 50mm & 74mm.
- ⑤ Spigot outlet (optional extra)
